Professional Experience

Postulate Info Tech

Present (Ongoing)

Role: AI/ML Intern

- Working on AI/ML projects involving data preprocessing, model building, and evaluation
- Applying machine learning algorithms to solve real-world business problems using Python and ML frameworks
- Contributing to data analysis, model training, and deployment workflows in a live professional environment

Adroit Technologies – IBM Cognos Analytics

2024

Role: IBM Intern

- Built and designed business intelligence dashboards using IBM Cognos Analytics
- Analysed and visualised data to generate meaningful reports and business insights
- Explored Cognos features including data modelling, report creation, and dashboard customisation

Digisailor

Dec 2024 – Jan 2025

Role: Developer Intern

- Developed and implemented the dashboard module for a mini e-commerce web application
- Designed responsive UI components using HTML, CSS, and JavaScript for product and order display
- Ensured cross-browser compatibility and participated in code reviews to improve code quality

Projects

Smart Bus Tracking System | Technologies: Next JS, Full Stack

- Built a real-time bus tracking web app with live location updates, map integration, and backend data handling
- Delivered a complete end-to-end full stack project covering both frontend and backend development

Mini E-Commerce Platform | Technologies: HTML, CSS, JavaScript, Tailwind CSS

- Built a mini e-commerce web app with product listings, responsive UI, and a fully functional admin dashboard
- Applied UI/UX best practices with Tailwind CSS for a modern, clean, and user-friendly interface

Education

Bachelor of Engineering – Computer Science Engineering (Pursuing)

Dr. G. U. Pope College of Engineering | Expected Graduation: 2026–2027

Awards & Accomplishments

- Currently interning at Postulate Info Tech as AI/ML Intern
- Completed IBM Cognos Analytics Internship at Adroit Technologies – 2024
- Completed Developer Internship at Digisailor – delivered e-commerce dashboard module
- Developed Smart Bus Tracking System (Next JS) and Mini E-Commerce Platform (Tailwind CSS)
